

Delivered in minutes, installed in seconds

RapidSSL is a 128 / 256 bit [single root](#) SSL certificate. RapidSSL.com owns the root used to issue RapidSSL certificates making it a [stable](#) SSL offering. RapidSSL is already present in the IE 5.01+, Netscape 4.7+ and Mozilla 1+ browsers and many other new Windows and Mac based browsers. At a very special low price of \$69, RapidSSL is an ideal solution for securing websites conducting [lite levels](#) of ecommerce.

RapidSSL Certificates have a browser recognition of around 99% and are ideal for websites conducting low volume / low value ecommerce transactions.

If your transaction volume and value warrants an SSL certificate from a known brand, or you require advanced site seal technology, please refer to our Professional Level SSL certificates section.

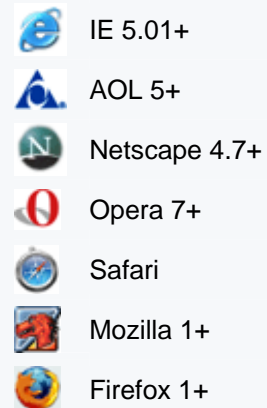

We urge everyone to know 'what's what' in all SSL certificates, so please read our [FAQ](#) and review the product matrix before you buy to ensure you choose the best SSL product for you. RapidSSL certificates offer you:

- Single root certificate - issued in minutes, installed in seconds!
